

INVEST IN WOMEN LEADING THE CHANGE

Who is Wedu?

Wedu is an award-winning social enterprise that unlocks the leadership potential of women in Asia by providing inspiring mentorship and affordable financial support to complete higher education and become change-makers in their communities. We call them 'Rising Stars'.

We envision a world where people from all corners of the world have the tools to change their lives and the society of their home country by being leaders of their own development.

The Wedu Mentorship Program

Rising Stars receive lifelong mentorship with mentors who have been carefully selected to best guide the mentee through their personal, professional, and leadership development. Rising Stars and mentors are paired and typically rematched yearly based on the mentees' growth and development.

Rising Stars develop a one-on-one mentoring relationship with their mentors, who will not only be their personal coach, but also a friend and source of guidance and encouragement.

Innovating Financing for Education

Wedu provides affordable financial support to Rising Stars to enable them to complete higher education. These include scholarships and loans of up to \$5,000 a year. In addition to this, we are pioneering the design and implementation of the first Future Income Sharing Agreements (FISAs) in Southeast Asia, which will make university education even more affordable compared to other financing options currently available to students.

Who do we work with?

We select young women from underprivileged backgrounds in Asia who exhibit strong leadership potential, have plans to or are already pursuing their higher education, and are committed to improving their local communities.

By participating in mentoring, Wedu mentors also benefit from leadership development opportunities guided by the Wedu team and a global family of Wedu mentors.
